# WHAT YOU WOULD LIKE TO DO AFTER COMPLETING THIS PROGRAMME

[illegible]

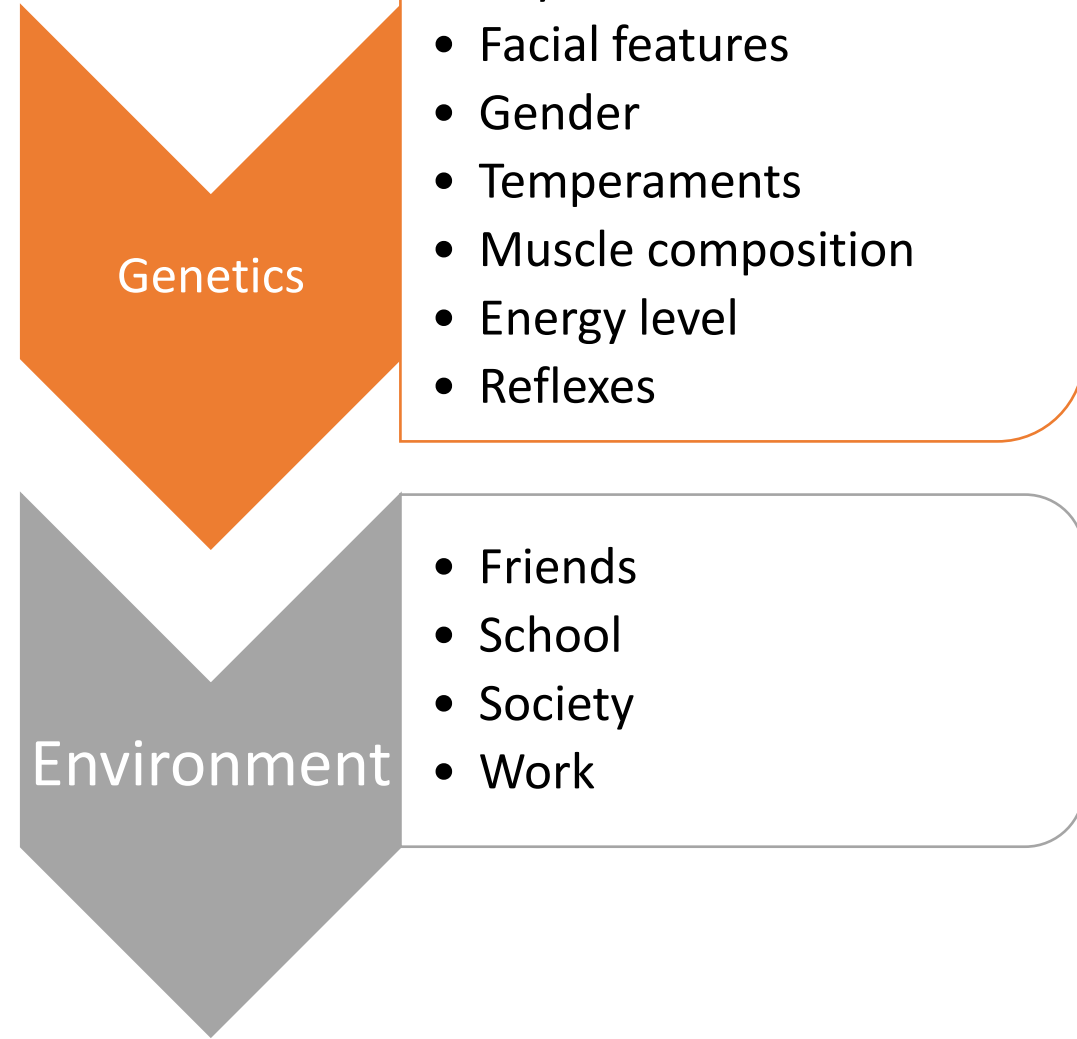

# What is Personality?

- Personality is the sum of ways in which an individual reacts to and interact with others.
- It is set of traits that aids in explaining and predicting individual behaviour.

# How is Personality Developed?

- Personality development is based on genetics and environmental factors.
- It is a sum of genetics and lifetime of learnings.

The diagram consists of two large downward-pointing chevrons. The top chevron is orange and labeled 'Genetics'. To its right is a rounded rectangle containing a bulleted list of genetic factors. The bottom chevron is gray and labeled 'Environment'. To its right is a rounded rectangle containing a bulleted list of environmental factors.

## Genetics

- Human Relations

# Measuring Personality

Personality assessment can be done with the help of various frameworks and assessment tools that helps us to categories and study the dimensions of personality.

- Locus of Control
- Myers-Briggs Type Indicator(MBTI)
- Big Five Personality Model

# The Big Five Model of Personality

- Tupes and Christal (1961) are commonly credited with discovering the Big Five, though their discovery was born from a reanalysis of data collected much earlier by Raymond Cattell
- The purpose of Big Five model is to reliably categorize most, if not all of the traits that you would use to describe someone.
- The model is organized into five dimensions and each dimension includes multiple traits.

## Surgency/Extroversion

It includes leadership and extroversion trait- Getting ahead of others

STRONG in leadership : energetic, assertive, active and ambitious, interested in leading through competing and influencing

WEAK in leadership : followers and don't like to compete or influence.

STRONG in extroversion: outgoing, sociable

WEAK in extroversion or are introverts: shy

# Agreeableness

- Sociable, spend most of the time with other people: Getting along with people
- STRONG in Agreeableness- warm, easy going, courteous, good-natured, cooperative, tolerant, compassionate, friendly, sociable.
- WEAK in Agreeableness- difficult, unfriendly, uncompassionate, unsociable.

# Adjustment/Emotional

- **Neuroticism (N)** (*reverse dimension*)
- Include traits related to Emotional stability
- STRONG in Adjustment- self-control, calmness, good under pressure, relaxed, secure and positive
- WEAK in Adjustment- poor under pressure, nervous, insecure, moody, depressed, angry and negative

# Conscientiousness

- Includes traits related to achievement
- **STRONG** in conscientiousness: Responsible and dependable-persistence, credibility, conformity, work hard and put extra time and effort to accomplish goals
- **WEAK** in conscientiousness: irresponsible, undependable.

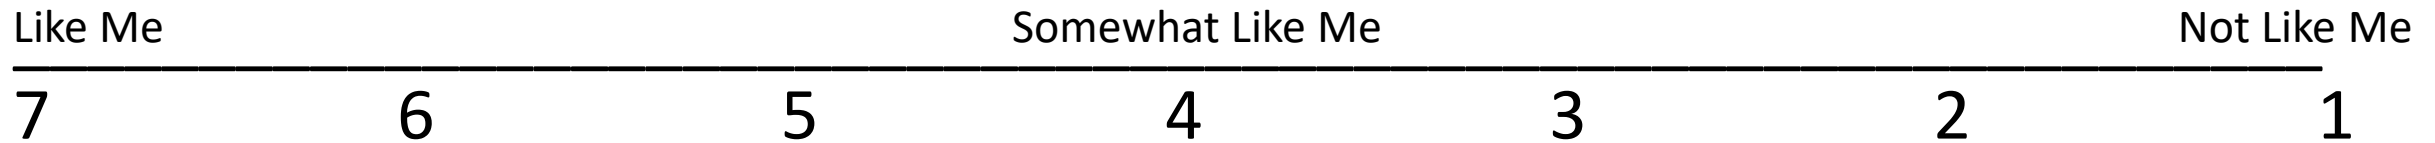

# Openness to Experience

- Willing to change and try up new things
- **STRONG** in this trait: imaginative, intellectual, open-minded, autonomous, creative, willing to try new things.
- **WEAK** in this trait: Avoid change and new things.

| Given Trait                             | OCEAN Dimension                                     | Meaning                                                                                   |
|-----------------------------------------|-----------------------------------------------------|-------------------------------------------------------------------------------------------|
| <b>Surgency</b>                         | <b>Extraversion (E)</b>                             | Sociability, assertiveness, energy, enthusiasm, and outgoing behaviour                    |
| <b>Agreeableness</b>                    | <b>Agreeableness (A)</b>                            | Cooperation, trust, kindness, empathy, and interpersonal harmony                          |
| <b>Adjustment / Emotional Stability</b> | <b>Neuroticism (N)</b> ( <i>reverse dimension</i> ) | Emotional stability, calmness, resilience, and ability to handle stress                   |
| <b>Conscientiousness</b>                | <b>Conscientiousness (C)</b>                        | Dependability, responsibility, organization, achievement orientation, and self-discipline |
| <b>Openness to Experience</b>           | <b>Openness to Experience (O)</b>                   | Creativity, curiosity, imagination, flexibility, and willingness to try new ideas         |

# The Big Five Model of Personality

Eg: \_\_\_\_ 1. I step forward and take charge in leadership situation.
